PREAMBLE.

EDWARD, R & I

Whereas by Section 136 of the Army Act it is enacted that the pay of an officer or soldier of His Majesty's Regular Forces shall be paid without any deduction other than the deductions authorised by that or any other Act, or by any Royal Warrant for the time being, or by a law passed by the Governor-General of India in Council,

And whereas it is commanded in the Warrant of Our late Royal Mother, dated the 26th October 1900, that the pay, non effective pay, and all other emoluments granted by that Her Warrant to an officer, soldier, or other person, shall be held liable to be stopped on the order of Our Secretary of State, to meet any public claim there may be against him, any regimental debt that may be due from him, or any regimental claim which Our Secretary of State may direct him to pay,

And whereas we deem it expedient that like provisions shall be extended to Our Indian Empire, wherein the provisions of the above Warrant, as regards full pay and allowances and other pecuniary benefits, are not in force,

We do hereby command that the pay, non effective pay, and all other emoluments payable under the Army Regulations, India, to an officer, soldier or other person, shall be held liable to be stopped, upon the general or special order of the Governor General of India in Council, to meet any public claim there may be against him, any regimental debt that may be due from him, or any regimental claim which the Governor General of India in Council may direct him to pay,

Provided that every case in which any emolument payable to an officer, soldier, or other person has been so stopped shall, if such officer, soldier, or other person so requires, be reported to the Secretary of State in Council of India who may pass such order thereon as he thinks fit

Definition

"Public claim" shall be held to mean any public debt or disallowance, including any over issue made through an error as to the facts, or a deficiency or irregular expenditure of public money or stores of which, after due investigation no explanation satisfactory to the Governor General of India in Council is given by the person who is responsible for the same

Given at Our Court at St James', this 22nd day of February 1902, in the second year of Our Reign

By His Majesty's Command,
(Sd) GEORGE HAMILTON

2 In exercise of the powers conferred on him by the above Royal Warrant, the Governor-General in Council is hereby pleased to direct that the pay, non-effective pay, and all other emoluments payable under the Army Regulations

India, to any officer, soldier, or other person, shall be stopped to meet any public claim there may be against him, any regimental debt that may be due from him, or any regimental claim which the Governor-General in Council may direct him to pay.

NOTE —In addition to the stoppages enforceable under the above Royal Warrant, the Governor General in Council can also order penal stoppages, under the provisions of section 137 (4) of the Army Act, from the pay of officers serving in India

236 The circumstances in which a soldier (including a warrant officer regimental or departmental) is liable to forfeiture of pay are laid down in the R W

237 Pay (less the cost of subsistence) may be issued in very special circumstances and by order of Government to a soldier convicted by the civil power for the period of his confinement awaiting trial or under sentence

238 An insane soldier is entitled to his gross pay (but no allowance in lieu of rations) less the cost of his maintenance (see P and A Regs, Part II) for the period he may be in a lunatic asylum, and up to the date he embarks for England, but see para 14 Appendix II

239 The pay of a soldier of the British army serving in India is discontinued—

RULES REGARDING TRADESMEN'S RATES OF PAY TO WARRANT AND NON-COMMISSIONED OFFICERS, AND MEN OF THE BRITISH ARMY.

242. The trades of all arms and departments are classified in five groups (A to E) and are shown in Appendix I

RULES REGULATING PAY OF WARRANT AND N C OS AND MEN, [243-53
BRITISH ARMY

243 Tradesmen's rates are primarily applicable to personnel serving in technical arms of the service who are mustered at trades authorised in the establishment of tradesmen laid down for their unit

244 A soldier enlisted for a trade in one group will be eligible for advancement in that group to a higher class or rank but will not be transferred to any other group unless he is remustered in another trade in a different group

245 Soldiers with trade qualifications serving in corps the establishment of which do not include personnel of their particular trade should not receive tradesmen's rates of pay by virtue of such qualifications *e.g.* a motor driver serving in an infantry unit nor should personnel mustered in a particular trade be granted tradesmen's pay at other rates on account of any additional qualifications in another trade *e.g.* a sapper (R E) who is mustered and is on the establishment of a unit as a clerk but who is also qualified as a fitter should be paid as a clerk and not as a fitter unless and until such time as he is mustered as a fitter and can fill a vacancy in the establishment for a fitter. If he is already mustered and paid as a fitter although employed as a clerk he may continue to be paid as a fitter until he can be transferred to fitter's duties

246 Soldiers of the rank of private will be classified according to qualifications. On promotion to ranks below sergeant a soldier will draw the rate of the trade in which he is mustered however employed but pioneers on the authorised establishment of infantry battalions should on promotion to fill vacancies as duty non-commissioned officers return to regimental duty and cease to draw pay at tradesmen's rates

247 In the case of units which consist mainly of tradesmen all warrant officers and non-commissioned officers of the rank of sergeant and upwards who were previously mustered as tradesmen will be paid at tradesmen's rates

248 The number of soldiers in each class will be determined by the number qualified for that class within the total numbers allowed for the particular trade. There will be no establishment for each class

249 Should a soldier after having been placed in a class subsequently fall below the standard prescribed for that class or fail to show diligence in his duties he will be degraded to a lower class or he may be removed from the tradesmen's groups altogether

250 Increments dependent on service will be subject to a satisfactory standard of military efficiency. Service in a class will count for increment in any higher class to which the soldier may be promoted. Service during which a soldier is paid under Table I will count for increments in the case of transfer to a tradesman's group

251 No soldier will be paid as a tradesman who does not belong to a trade shown in Appendix I

252 Men and boys who are unskilled at any trade will be paid at normal rates while learning a trade or until they have passed the necessary trade test for classification as tradesmen

253 Men who have a trade on enlistment and are enlisted for service under one of the tradesmen's groups will be paid in their group under class III

253-59] RULES REGULATING PAY OF WARRANT AND NON COMMISSIONED SOLDIERS AND MEN,
BRITISH ARMY

from the date of doing recruit drill while at the rate of the class

254. When the trade in which a soldier is mustered and paid becomes obsolete for the army and is notified as deleted from the trade groups, the soldier may, for a period not exceeding six months from the date of the order notifying the deletion, continue to draw the rate of pay of which he is actually in receipt at that date, but will not be entitled to be reclassified for any higher class in that trade. During those six months he should be given opportunities of qualifying in another recognised trade, and if found qualified therein, reclassified at the rate thereof immediately be

given the option of either reverting to normal rates of pay until he does qualify in a recognised trade, or of taking a free discharge

255. In cases where the soldier's trade is rendered obsolete for the corps in which he is serving but remains recognised for another corps he may, if suitable, and men of his trade are required, be given the option of immediately transferring to a corps in which his trade is still recognised. If not required by such other corps or if the soldier desires to remain in his own corps the conditions of para 254 will apply

256. When a trade is transferred to a higher group and new tests are introduced, soldiers who have already been assessed for pay in that trade on the tests previously in force may continue in receipt of their existing rate of pay, but will not be eligible to be reclassified for a higher class in their existing group, or to receive pay in the higher group until they fulfil the requirements of the new test promulgated in connection with the transfer of the trade to such higher group. If no new tests are introduced they will be paid without any further test at the rates for the higher group with effect from the date on which the change is notified

257. When a trade is notified as being transferred to a lower group, instructions regarding the pay of soldiers affected will be issued with the order promulgating the change in group

258. Any continuous period of more than 28 days during which a soldier is not eligible for army pay shall not count for increment of pay under Table I or II, e.g., any period of penal servitude, imprisonment, field punishment or detention, or any continuous period of desertion or absence without leave exceeding 28 days for which army pay is forfeited, or any period in class "W" Reserve or on agriculture exceeding 28 days

259. Where individual soldiers of non technical units drawing normal rates of pay under Table I are attached to a technical corps for employment on tradesmen's duties they should be tested and classified as tradesmen in the trade they are called upon to exercise by the O.C. the technical unit to which the soldiers are attached or by the technical officer nominated by him. The O.C. the technical unit to which the men are attached should communicate to the O.C. the men's permanent units necessary particulars regarding (1) the result of test, (2) the rate of pay for which the soldiers are qualified

**RULES REGULATING PAY OF WARRANT AND N C OS AND MEN, [259-63

and (3) the periods for which pay is issuable in order that the notifications necessary to regulate the men's pay may appear in the daily orders of the men's permanent units

This rule does not apply to those cases where a party of soldiers is temporarily detailed to assist in the execution of work which does not call for the exercise of tradesmen's qualifications. In such cases working pay [para 88 (ii)] will only be issued notwithstanding that the party may be employed directly under an officer of a technical arm and not under an officer of the unit to which the party belongs.

260 In order to qualify for tradesmen's rates of pay British Royal Artillery personnel serving with Artillery Brigade Signal sub sections must qualify in the trade tests laid down for similar personnel in the Signal service.

261 In the absence of an armourer sergeant on duty at a sanitarium an assistant armourer who has been trained in a regimental workshop may be granted tradesmen's rate of pay. This rate of pay may also be allowed to a soldier who has been trained as an assistant armourer should his services be required in an arsenal.
